REPORT

OF THE

TRUSTEES

OF

The Newberry Library

For the Year 1897.

SPRINGFIELD, ILL.
Phillips Bros. State Printers
1898.

LETTER OF TRANSMITTAL.

To His Excellency, JOHN R. TANNER, *Governor of the State of Illinois, Springfield, Illinois:*

DEAR SIR:—The Trustees of The Newberry Library, in compliance with the Act for the incorporation of Free Public Libraries in this State, have the honor to transmit herewith their Annual Report for the year 1897.

Respectfully submitted.

THE NEWBERRY LIBRARY. E. W. BLATCHFORD,

CHICAGO, January 1, 1898. *President.*

REPORT OF THE TRUSTEES.

CHICAGO, January 1, 1898.

In pursuance of the provisions of "An Act to encourage and promote the establishment of Free Public Libraries in cities, villages, and towns of this State," (Illinois), the Trustees of The Newberry Library make this, their sixth annual report.

There has been no change in the membership of the Board of Trustees and its officers since the last annual report, January 1, 1897. A list of the Trustees is appended hereto, marked Exhibit I.

In the annual report of the Librarian, appended hereto and marked Exhibit II to VIII inclusive, are presented the statistics of the Library for the past year. The number of general periodicals on file is 568, and in the medical department 450, making a total of periodicals 1,018. The accessions during the year of volumes and pamphlets in the general and medical departments numbered 23,529, making the total contents of the Library on January 1, 1898, 203,108.

We recognize an increase in the use made of the Library, both by our citizens and by many from out of town. The valuable collections in our medical, historical, musical and periodical departments prove a constant attraction to students and writers on those subjects.

The Trustees would present their thanks to the many donors whose gifts are detailed in the Librarian's report.

Appended hereto, marked Exhibit IX, is a statement of the personal property and real estate belonging to the corporation.

Respectfully submitted,

E. W. BLATCHFORD,

President.

ANNUAL REPORT OF THE LIBRARIAN.

The Librarian has the honor to submit to the Board of Trustees of The Newberry Library his report for the year 1897.

Among the accessions (7,605 volumes and pamphlets) to the General Library during the past year, special mention should be made of the collection of Americana purchased from Henry Stevens, Son & Stiles, of London. This collection, which the late Henry Stevens was many years in bringing together, contains over 600 volumes and pamphlets relating to the American Revolution.

There have been added to the Medical Department 15,924 volumes and pamphlets, making the total contents of the department, at the present date, 30,303 volumes and 24,642 pamphlets. We have had the good fortune to add, by gift, to this department also an entire collection,—the well-known library of the late Dr. Emil DuBois Reymond, of Berlin. The medical portion of this collection, consisting of 10,200 volumes and pamphlets, is mainly devoted to physiology. The remaining portion, miscellaneous in character, is specially rich in sets of standard scientific works, including transactions and proceedings of Learned Societies. For this most generous gift, the second large collection that he has presented to the Medical Department, we are indebted to Dr. Nicholas Senn.

As will be seen by reference to Exhibit VI, many other physicians of the city have contributed books and pamphlets during the year. Two ladies of Chicago have remembered the Medical Department with gifts: Mrs. Charles Gilman-Smith contributing 235 volumes and 206 pamphlets, and Mrs. Fannie E. Shipman 106 volumes.

An unusual and very pleasant feature of the year was the reception given by the Trustees on the evening of December 8th in honor of Dr. Senn, on his return from the Twelfth International Medical Congress, held at Moscow. Some 1,500 invitations were issued to the Medical Faculty of the city and county, and to prominent representatives of other professions. The attendance was large, and the enthusiasm manifested bore testimony to the high regard in which the department is held by the physicians and the medical students of Chicago.

As the circular issued by the Trustees and distributed on the evening of the reception gives a succinct account of the origin and development of the Medical Department and an expression of the intent of the Trustees concerning its future, it has been thought proper to include it in the present report:—

THE NEWBERRY LIBRARY—MEDICAL DEPARTMENT.

About twelve years since The Chicago Public Library received a gift of four Medical Collections—those of The Chicago Medical Society, The Chicago Medical College, The Chicago Medical Association, and The Homeopathic Relief Association. This was the first united effort in Chicago to give to the general public a Medical Library, and the Medical Library Association of Chicago was organized to take special charge of its interests.

Some progress was made in the collection of books, which were stored in an upper room of The Public Library, then located in the City Hall. In 1890, on the suggestion and at the request of prominent members of the Medical Faculty of our city, and with the approval of the Directors of The Public Library, the collection was transferred to The Newberry Library, whose Trustees assumed the duties of providing and maintaining a Medical Department for the use of the public, and to meet the demands of the Medical Profession. From this nucleus, which consisted of about nine thousand volumes and eight thousand pamphlets and unbound serials, the Medical Department has increased to its present proportions of over thirty thousand volumes and twenty-two thousand pamphlets, and over four hundred carefully selected periodicals in every department of medical science, which are promptly placed on

our shelves ready for immediate use. The department to-day, as a practical Medical Reference Library, stands on a par with the largest Medical Libraries of New York and Philadelphia.

The Trustees of The Newberry Library would tender their grateful acknowledgments to the members of the medical profession of our city for the generous aid extended from its foundation to the present time in securing these large additions, both by their advice and by frequent gifts of books and pamphlets. Thus have these friends fostered the department by their continued active generosity in behalf of the collection.

While the Trustees of The Newberry Library would express their gratitude to many eminent physicians and surgeons for contributions of value, they would make special acknowledgment to Dr. Nicholas Senn for his appreciation of the opportunities which The Newberry Library affords for bringing these treasures of knowledge into contact with the medical profession of this city, and of our country—an appreciation which has been manifested by signal activity and continued generosity. The first large gift from Dr. Senn was the library of Dr. Wilhelm B. Baum, of Göttingen; the second, lately received, was the famous collection of Dr. Emil Du Bois-Reymond, of Berlin. To these collections Dr. Senn has added largely, from time to time, from his private library, including among his gifts the original manuscripts of some sixty works from his own hand. The medical profession is generally familiar with the working contents of this department, but few probably are aware of the rare and costly editions scattered through it, especially through the Senn Collection.

It is the purpose of the Trustees of The Newberry Library to bring the Medical Department up to the highest point of usefulness, and for this purpose they would bespeak the continued good offices of the medical profession of Chicago and the freest use of the material here being gathered. They regard the growing interest in the department as encouraging, and feel justified in making special provision for its maintenance and increase.

Trustee Edward E. Ayer has contributed some 500 volumes, during the past year, to his collection of Americana. Among these are to be found such rare books as John Eliot, *Holy Bible*, translated in the Indian language.—Cambridge, 1663;—Leuwis de Rinkel: *Copedio brere..de hazer las poessiones conquesto.* Mexico, 1554.—W. Hubbard. *Narrative of the troubles with the Indians in New England;*—Boston, 1677;—Sir Francis Drake. *Expeditio Francisci Draki..in Indias occidentalis.* Leydae, 1588.

Among the important additions to the Egyptological collection may be mentioned the last work received. *Histoire de L'art Egyptien* par Prisse De'Avennes.

First among the gifts to the General Library stands that of Mrs. Nicholas Senn, the Cygne Noir edition of "The Book of Wealth." Six sections of this elaborate publication are already delivered, and the remaining four will arrive as fast as they are printed. Two other gifts to the General Library should be mentioned, 212 volumes received from Mrs. Charles Gilman Smith and 185 volumes and 15 pamphlets received from Mrs. C. Hammond Bellows.

Though the Library was closed for two weeks during the month of August, the statistics show an increase in the number of readers. The new shelf-list, which is virtually a subject catalogue, has been of much service, and has considerably lessened the number of books drawn in order to find the matter sought.

The main catalogue work of the year has been the genealogical index. This index, begun March 19, 1896, will contain, within the next thirty days, 300,000 entries; of these entries, 184,000 were made during the past year.

The number of current periodicals on file in the general reading-room is 568: American, 259; German, 110; English, 104; French 62; Italian, 21; Dutch, 3; Spanish, 2; Swedish, 2; Danish, Japanese, Norwegian, Portuguese, North American Indian, each 1.

The number of medical periodicals on file is 450; total periodicals, 1,018.

Respectfully,

J. V. Cheney, *Librarian.*
